

NLP

step = 7

$\theta$

The figure shows a 2D plot with a vertical axis labeled 'NLP' and a horizontal axis labeled ' $\theta$ '. An orange curve represents a function, which is non-convex. It starts at a low value on the left, rises to a peak, then falls to a local minimum, and finally rises again towards the right. A solid black circle is placed on the curve at its local minimum. The text 'step = 7' is located in the upper right quadrant of the plot, above the local minimum.
